

## **UPDATE version 1.4.1**

**( only for version 1.4.0, If your version is 1.3.1 than please read Update 1.4.0 )**

**Follow the steps bellow to update your template only if you have an earlier version ( for example you have version 1.4.0)**

### **STEP 1**

**IMPORTANT !!!** First create a back-up of your current SYNERGY version!!!

### **STEP 2**

**Overwrite the “style.js” from the folder “css” into your own “css” folder.**

**IMPORTANT!!!** If you have added new code into the style.css file than open your back-up file and add them again in the updated file.

### **STEP 3**

**Open the file “mc.modules.animation.js” from the folder “js” with any text editor:**

**1)** Select all text from `“/* start ready function */”` (line 26) until the end(`/*----- end Utils Methods -----*/`) and delete it.

**2)** Open the NEW `mc.modules.animation.js` from `v1_2_0` and select again the text from `“/* start ready function */”` until the end.

Copy the text and paste it in your current JS file( **1** ).

Save the file( don't change the file name ).

## SOCIAL INTEGRATION( FIXING THE LAG )

Due to the fact that the social buttons are not added dynamically there is a lag when the module start animations( portfolio and columns) is running. The update 1.4.1 solves the this lag issue.

### STEP 4

Open the file `“portfolio.html”` from the folder `“html/portfolio/”`( from version 1.4.1) with any text editor:

```

<div id="full-width-info-container" class="full-width-info-container shadow-side-left">
  <div class="full-width-info-holder">
    <div class="full-width-info-holder-desc">
      <p>Giuseppe</p>
      <div class="custom-separator"></div>
      <span>Pellentesque diam lectus, dapibus non lacinia in, vulputate sit amet dolor. Vivamus sollicitudin nunc sed
      <span>Vivamus porta, mi non vestibulum semper, massa nisl commodo est, quis fermentum nisi risus in erat. Phase
      <!-- start social facebook, twitter and pinterest -->
      <div id="social-holder">
        <div id="social-holder-back" class="opacity_2"></div>
        <div data-src="//www.facebook.com/plugins/like.php?href=http%3A%2F%2Fthemes.mediacreed.com%2F%23portfolio&a
          style="float:left; border:none; overflow:hidden; width:82px; height:21px; margin: 6px 5px 5px 10px;"><
        <div data-src="https://platform.twitter.com/widgets/tweet_button.html?url=http://themes.mediacreed.com/html
          style="float:left; border:none; overflow:hidden; width:82px; height:21px; margin: 6px 5px 5px 10px;"><
        <a href="http://pinterest.com/pin/create/button/?url=http%3A%2F%2Fthemes.mediacreed.com%2Fhtml%2Fsynergy%2F
      </div>
      <!-- end social facebook, twitter and pinterest -->
    </div>
    <div class="full-width-info-holder-desc">
      <p>Beat</p>

```

Copy the highlighted text( from 1.4.1 portfolio.html file )

<div id="social-holder">..... </div> In your **portfolio.html**.

This must be exactly after the <span> Vivamus.... </span>

## STEP 5

Open the file **"4\_columns\_projects.html"** from the folder  
 "html/our\_projects/"( from version 1.4.1) with any text editor:

```

<ul>
  <li>
    <div class="columns-preview-media" data-src="assets/media/our_projects/4_columns/images/image1.jpg">
    <div class="columns-preview-description">
      <p>Giuseppe</p>
      <span>Etiam viverra, sem sit amet convallis posuere, ante velit congue dolor, vitae semper tort
      <span>Sed sit amet leo sit amet nisl dignissim sagittis. Donec semper arcu augue. In eget erat :
      <span>Suspendisse mollis feugiat consectetur. Suspendisse arcu nisl, vulputate ut laoreet ut, l
      <!-- start social facebook, twitter and pinterest -->
      <div id="social-holder">
        <div id="social-holder-back" class="opacity_2"></div>
        <div data-src="//www.facebook.com/plugins/like.php?href=http%3A%2F%2Fthemes.mediacreed.com%
          style="float:left; border:none; overflow:hidden; width:82px; height:21px; margin: 6px
        <div data-src="https://platform.twitter.com/widgets/tweet_button.html?url=http://themes.med
          style="float:left; border:none; overflow:hidden; width:82px; height:21px; margin: 6px
        <a href="http://pinterest.com/pin/create/button/?url=http%3A%2F%2Fthemes.mediacreed.com%2Fh
      </div>
      <!-- end social facebook, twitter and pinterest -->
    </div>
  </li>

```

Copy the highlighted text( from 1.4.1 portfolio.html file )

```
<div id="social-holder">..... </div>
```

In your **4\_columns\_projects.html**. This must be exactly after the  
<span> Suspendisse.... </span>

The same procedure for social applies to **3\_columns\_projects.html** and  
**2\_columns\_projects.html**
