

UPDATE version 1.3.1

(only for version 1.3.0, If your version is 1.2.0 than please read Update 1.3.0)

Follow the steps bellow to update your template only if you have an earlier version (for example you have version 1.3.0)

STEP 1

IMPORTANT !!! First create a back-up of your current SYNERGY version!!!

STEP 2

Overwrite the “style.js” from the folder “css” into your own “css” folder.

IMPORTANT!!! If you have added new code into the style.css file than open your back-up file and add them again in the updated file.

STEP 3

Open the file “mc.modules.animation.js” from the folder “js” with any text editor:

1) Select all text from **“/* start ready function */”** (line 26) until the end(**/*----- end Utils Methods -----*/**) and delete it.

2) Open the NEW **mc.modules.animation.js** from v1_2_0 and select again the text from **“/* start ready function */”** until the end.

Copy the text and paste it in your current JS file(**1**).

Save the file(don't change the file name).

STEP 4

Overwrite the “mc.custom.list.js” image from the folder **“js/mediacreed/scrollbar”** into your own **“js/mediacreed/scrollbar”** folder.
