

UPDATE version 1.3.0

(only for version 1.2.0, If your version is 1.1.1 than please read Update 1.2.0)

Follow the steps bellow to update your template only if you have an earlier version (for example you have version 1.2.0)

STEP 1

IMPORTANT !!! First create a back-up of your current SYNERGY version!!!

STEP 2

Overwrite the “style.js” from the folder “css” into your own “css” folder.

IMPORTANT!!! If you have added new code into the style.css file than open your back-up file and add them again in the updated file.

STEP 3

Copy “audio” folder from the folder “assets” into your own “assets” folder.

STEP 4

Overwrite the **“synergy_sprite.png”** image from the folder **“assets”** into your own **“assets”** folder.

STEP 5

Copy **“audio-js”** folder from the folder **“js”** into your own **“js”** folder.

STEP 6

Open the file **“mc.modules.animation.js”** from the folder **“js”** with any text editor:

1) Select all text from **“/* start ready function */”** (line 26) until the end(**/*----- end Utils Methods -----*/**) and delete it.

2) Open the NEW **mc.modules.animation.js** from v1_2_0 and select again the text from **“/* start ready function */”** until the end.

Copy the text and paste it in your current JS file(**1**).

Save the file(don't change the file name).

STEP 7

Overwrite the “mc.custom.list.js” image from the folder “js/mediacreed/scrollbar” into your own “js/mediacreed/scrollbar” folder.

STEP 8

Open the file “index.html” (from version 1.3.0) with any text editor:

```
<script type="text/javascript" src="js/libs/jquery.gmap.min.js"></script>
<script type="text/javascript" src="js/greensock/minified/TweenMax.min.js"></script>
<script type="text/javascript" src="js/libs/jquery.timer.js"></script>
<script type="text/javascript" src="js/libs/jqueryui/1.8/jquery-ui.min.js"></script>
<script type="text/javascript" src="js/libs/jquery.mousewheel.min.js"></script>
<script type="text/javascript" src="js/audio-js/jquery.jplayer.min.js"></script>
<script type="text/javascript" src="js/audio-js/jplayer.playlist.min.js"></script>
<script type="text/javascript" src="js/mediacreed/scrollbar/mc.custom.list.js"></script>
<script type="text/javascript" src="js/mc.modules.animation.js"></script>
<link rel="stylesheet" href="js/video-js/video-js.min.css" media="screen" />
<script type="text/javascript" src="js/video-js/video.min.js"></script>
<!-- END TEMPLATE JavaScript load -->
```

Open your “index.html” file and paste the <script> selected tags above “mc.custom.list.js”.

Now go again to the file “index.html” (from version 1.3.0) scroll until you find <div id=“audio-player” And select all until <footer> HTML tag, copy the selected text(ctrl+c). See the image bellow(next page):

```

<div id="audio-player" data-auto-play="true" data-player-opened="true" data-player-volume="0.6">
  <div id="audio-items">
    <div id="audio-track" data-src="assets/audio/on_top_of_the_world" data-title="Tim McMorris - Top Of The World"></div>
    <div id="audio-track" data-src="assets/audio/overwhelmed" data-title="Tim McMorris - Overwhelmed"></div>
    <div id="audio-track" data-src="assets/audio/playing" data-title="Tim McMorris - Playing"></div>
    <div id="audio-track" data-src="assets/audio/happy" data-title="Tim McMorris - Happy"></div>
  </div>
  <div id="audio-player-tooltip" class="opacity_0">
    <div id="audio-tooltip-holder">
      <div class="audio-tooltip-backg"></div>
      <div class="audio-player-tooltip-title"><span></span></div>
    </div>
    <div class="audio-player-tooltip-hook"></div>
  </div>
  <div id="audio-player-holder">
    <div id="audio-options-button">
      <div class="audio-options-button-backg"></div>
      <div class="audio-options-button-sign"></div>
    </div>
    <div id="audio-player-options-holder">
      <div id="audio-prev-track">
        <div class="audio-controls-backg"></div>
        <div class="audio-prev-track-sign"></div>
      </div>
      <div id="audio-play-pause-track">
        <div class="audio-controls-backg"></div>
        <div class="audio-play-track-sign"></div>
        <div class="audio-pause-track-sign"></div>
      </div>
      <div id="audio-next-track">
        <div class="audio-controls-backg"></div>
        <div class="audio-next-track-sign"></div>
      </div>
      <div id="audio-volume-speaker">
        <div class="audio-controls-backg"></div>
        <div class="audio-volume-on-sign"></div>
        <div class="audio-volume-off-sign"></div>
      </div>
      <div id="audio-volume-bar">
        <div class="audio-volume-bar-scrub-backg"></div>
        <div class="audio-volume-bar-scrub-current"></div>
      </div>
    </div>
  </div>
</div>
<footer>
  <div id="footer-social">

```

Open your “index.html” file and paste the selected text ABOVE the <footer> HTML tag. As you see in the above image.

Save your index.html file and close it(for advanced users, you need to do that for all HTML files when accessing directly the HTML page)

STEP 9

Open the file “home_layout_2.html” from the folder “html/home/”(from version 1.3.0) with any text editor:

```

iv>
v id="module-container-holder" class="module-position-cc" data-id="module-position-cc">
<div id="module-home-layout2" class="module-home-layout2" >
```

STEP 10

Copy the following images from “2_columns/images” or “3_columns/images” or “4_columns/images” folder into your own columns images folder:

- image2_1.jpg
- image2_2.jpg
- image3_1.jpg

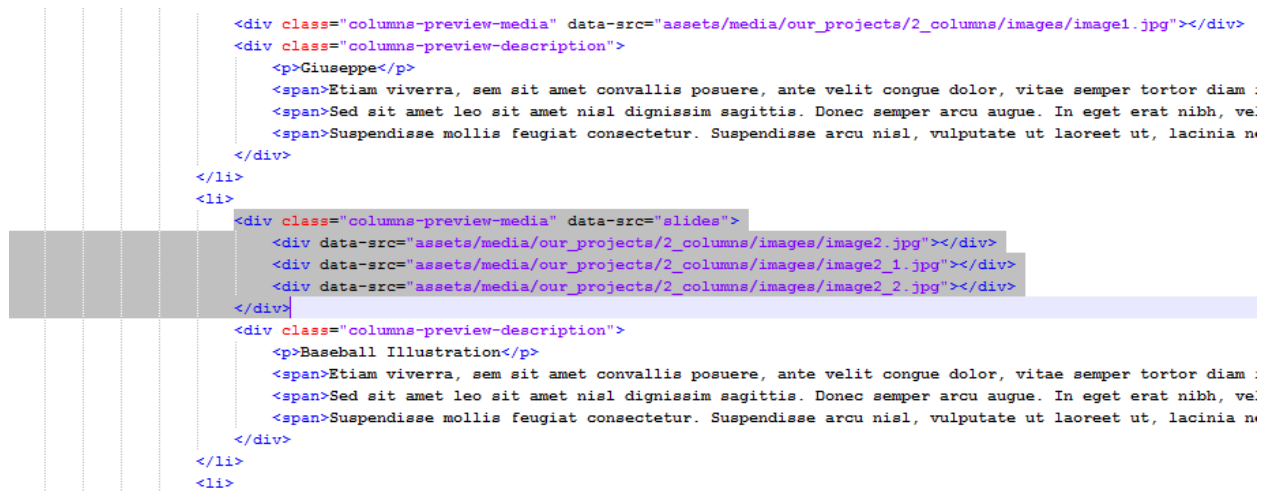

STEP 10

Open the file “4_columns_projects.html” or “3_columns_projects.html” or “2_columns_projects.html” from the folder “html/our_projects/” (from version 1.3.0) with any text editor:

```
<div class="columns-horizontal-separator"></div>
<div class="columns-preview-horizontal-fix">
  <div id="columns-slides-controls">
    <div class="col-prev-media-arrow-backward">
      <div class="col-prev-media-arrow-backg opacity_2"></div>
      <div class="col-prev-media-arrow-backward-sign"></div>
    </div>
    <div class="col-prev-media-arrow-forward">
      <div class="col-prev-media-arrow-backg opacity_2"></div>
      <div class="col-prev-media-arrow-forward-sign"></div>
    </div>
  </div>
</div>
<ul>
  <li>
    <div class="columns-preview-media" data-src="assets/media/our_projects/2_columns/images/image1.jpg">
      <div class="columns-preview-description">
        <p>Giuseppe</p>
        <span>Etiam viverra, sem sit amet convallis posuere, ante velit congue dolor, vitae semper tortor</span>
        <span>Sed sit amet leo sit amet nisl dignissim sagittis. Donec semper arcu augue. In eget erat n</span>
        <span>Suspendisse mollis feugiat consectetur. Suspendisse arcu nisl, vulputate ut laoreet ut, la</span>
      </div>
    </li>
```

Copy the selected <columns-slides-controls> as shown in the image above and paste it in our column html page **above the ** HTML tag

Now copy the multiple slides as shown in the image bellow:

Add the tags as we showed in the image above.

!!!! MAKE SURE YOU HAVE THE IMAGES OTHERWISE IT WON'T WORK
