UPDATE version 1.4.4

(only for version 1.4.3, **If your version is 1.4.2 than please read Update 1.4.3)**

Follow the steps bellow to update your template only if you have an earlier version (for example you have version 1.4.3)

STEP 1

IMPORTANT !!! First create a back-up of your current SYNERGY version!!!

STEP 2

Open the file "mc.modules.animation.js" from the folder "js" with any text editor:

1) Select all text from **"/* start ready function */**" (line 26) until the end**(/*----------------- end Utils Methods ---------------------*/**) and delete it.

2) Open the NEW **mc.modules.animation.js** from v1_4_4 and select again the text from **"/* start ready function */**" until the end.

Copy the text and paste it in your current JS file(**1)**).

Save the file(don't change the file name).

STEP 3

Open the file "about_us.html" from the folder "html/about_us/"(**from version 1.4.4**) with any text editor:

```
<div class="custom-separator"></div>
<!-- ONLY FOR MOBILE( used as back-up) :

    Set 'data-img-touch' bellow as a back-up(when using GIF)
    Beacause GIF don't play on iPhone so you can show an alternative JPG image.

    If you don't use GIF's then please disregard this comment!
-->
<div class="media-holder" data-img-touch="assets/media/about_us/about_us/about_image.jpg">

    <!-- YOU CAN USE animated GIF. Just replace the <img> src with a GIF -->
    <img src="assets/media/about_us/about_us/about_image.jpg" width="100%" class="opacity_0" onload="animateThumb(this)"/>
</div>
```

Copy the highlighted text(from 1.4.4 portfolio.html file)

data-img-touch="assets/media/about_us/about_us/about_image.jpg"

In your **about_us.html**. This must be exactly after the class attribute

The same procedure for social applies to **philosophy.html, careers.html and ethics.html**
